

WellSpace Health, a Federally Qualified Health Center (FQHC) has provided services since 1953 to the underserved populations in the Sacramento Region. These services include high-quality primary medical care for all ages, pediatric dental care, specialty care and integrated behavioral health services.

Recognizing the residents of the communities we serve are diverse in nature, every attempt is made to provide services in our patient/client's preferred language. Following is a list of the languages spoken by staff in some of our Community Health Centers. Please note, not all languages are available at all locations.
